AERO Cockpit Cleaning Rag

PI 2/13/05/2015

Description

Special cleaning cloth for removing contamination on virtually all surfaces. A streak-free and lint-free finish for smooth surfaces such as plastic, glass, stainless steel and sealed wood surfaces. A microfiber cloth plus water is all it takes to clean surfaces superbly. Also suitable for polishing paintwork care products when used dry. Gently removes fingerprints and dust 100 %.

Contains: 80 % polyester, 20 % polyamide Color: blue

Properties

- outstanding absorption capacity
- can be applied without scratching
- can be washed at temperatures up to 95 °C

Areas of application

Suitable for cleaning the "clocks and dials", glass cockpit and panel. Ensures dry, streak-free cleaning of all glass and acrylic surfaces without leaving any residue. Can be used without scratching or leaving streaks on virtually all materials in use. Specially formulated for the needs of general aviation.

Application

Clean the contaminated surface with a damp cloth and rinse several times with clean warm water. For manual polishing, apply the paintwork care product using circular motions and applying light pressure; then bring out the radiance of the paint with the dry cloth. The cloth is machine washable up to 95 °C but fabric conditioner must not be used.

Available pack sizes

1 Stk Bag plastic with Euro holes	5906 D-GB-F
